Locomotion

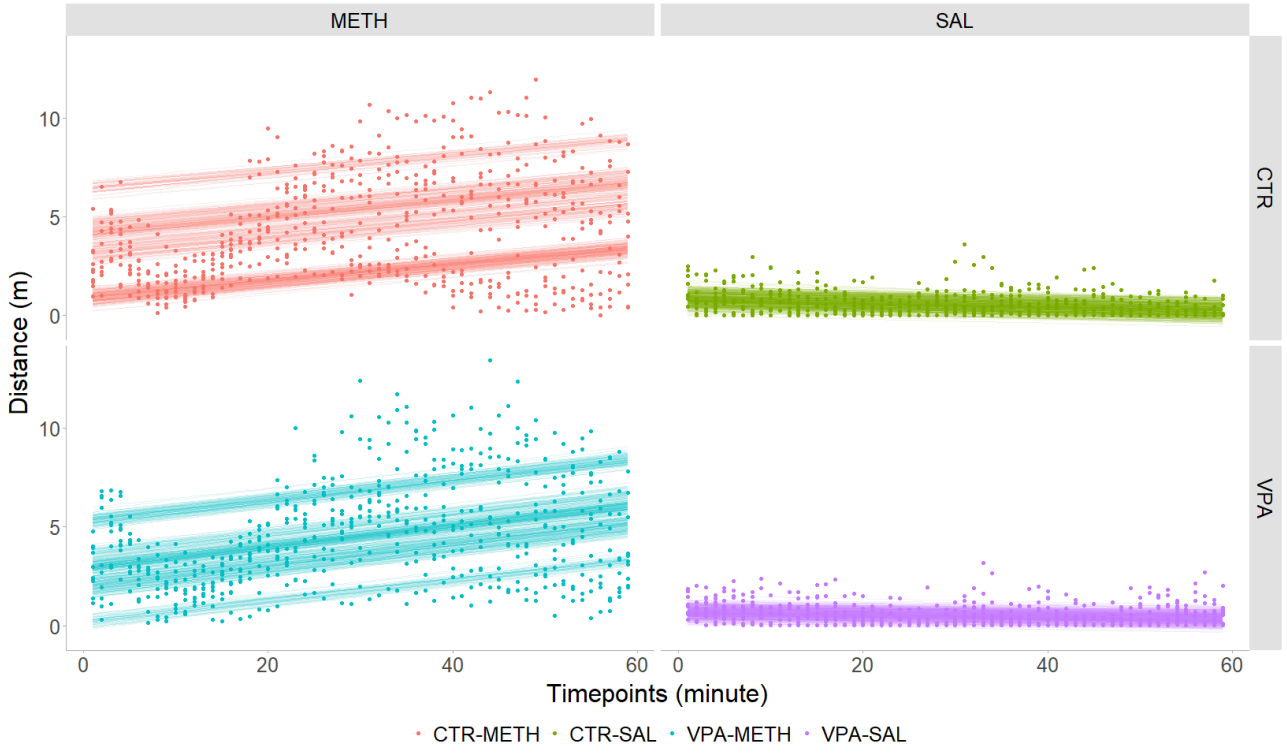

2026-09-30

Table of contents

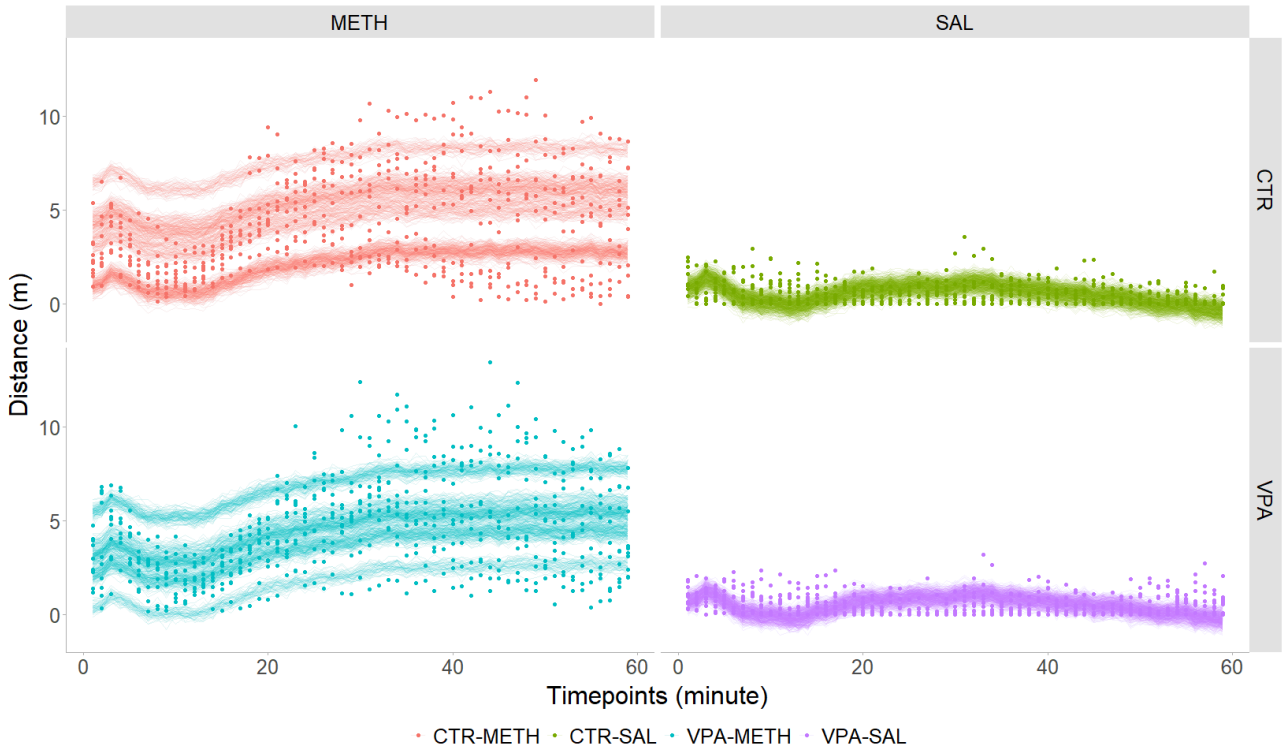

Model options 1
y ~ 1 + time * group + (1 | animal) + Normal(0, sigma) 1
y ~ 1 + time * group + (1 | animal) + (1 | time) + Normal(0, sigma) 2
y ~ 1 + time * group + (1 | animal) + (1 | time) + (1 | litter) + Normal(0, sigma) 2
y ~ 1 + gp(time, by = group) + (1 | animal) + (1 | litter) + Normal(0, sigma) 3
Contrasts 3
Different random effects contribution 4
No random effects 4
Animal variability 4
Litter variability 5
Time-point variability 5

Model options

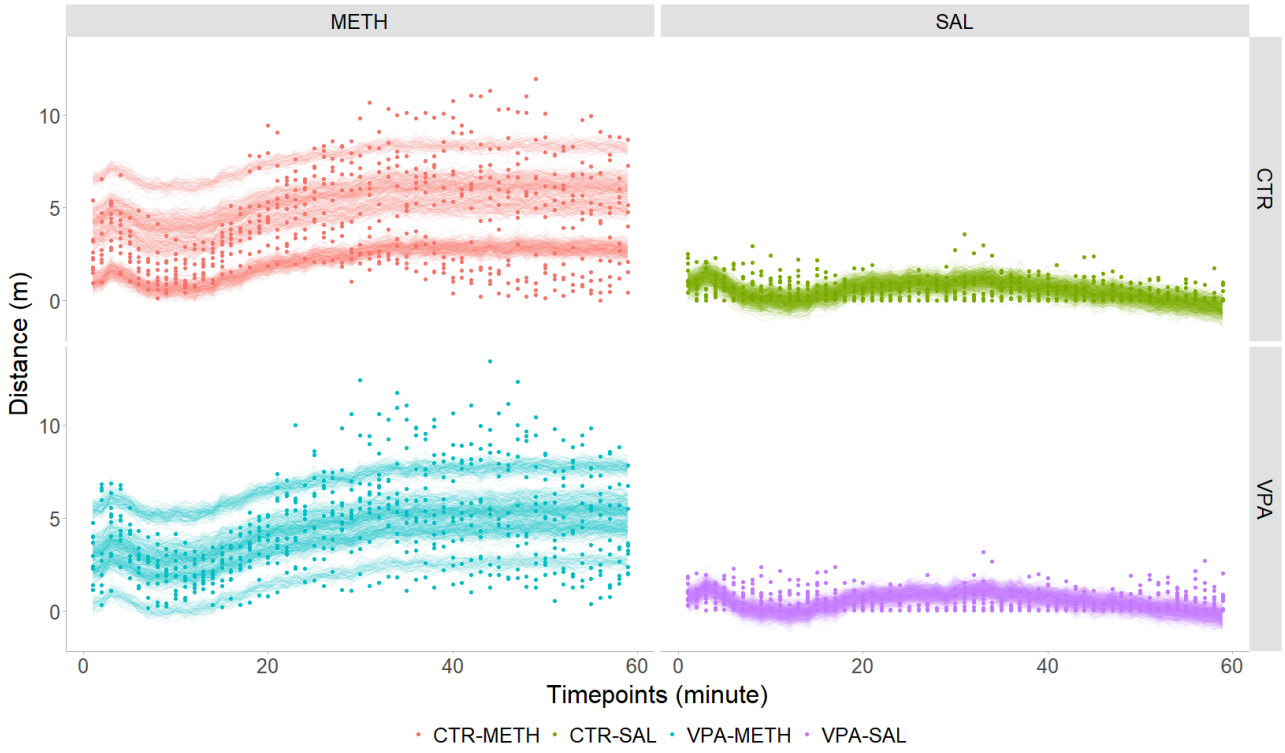

y ~ 1 + time * group + (1 | animal) + Normal(0, sigma)

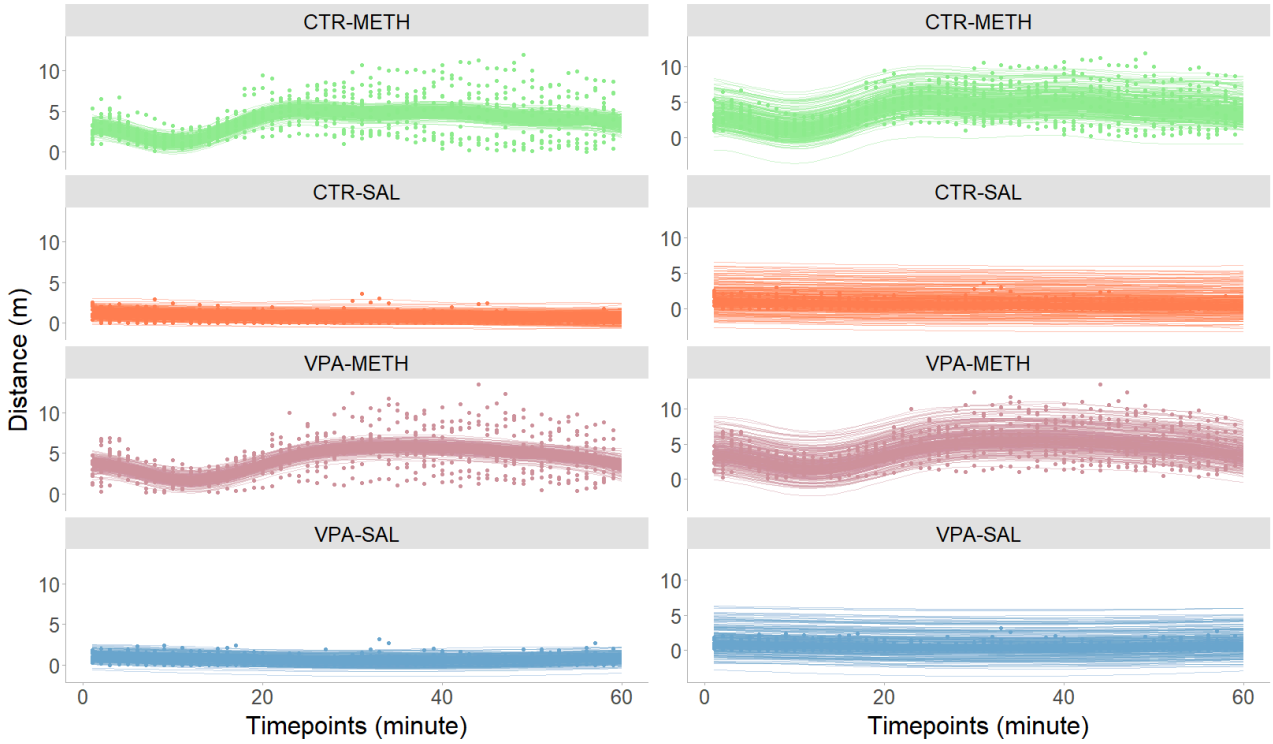

y ~ 1 + time * group + (1 | animal) + (1 | time) + Normal(0, sigma)

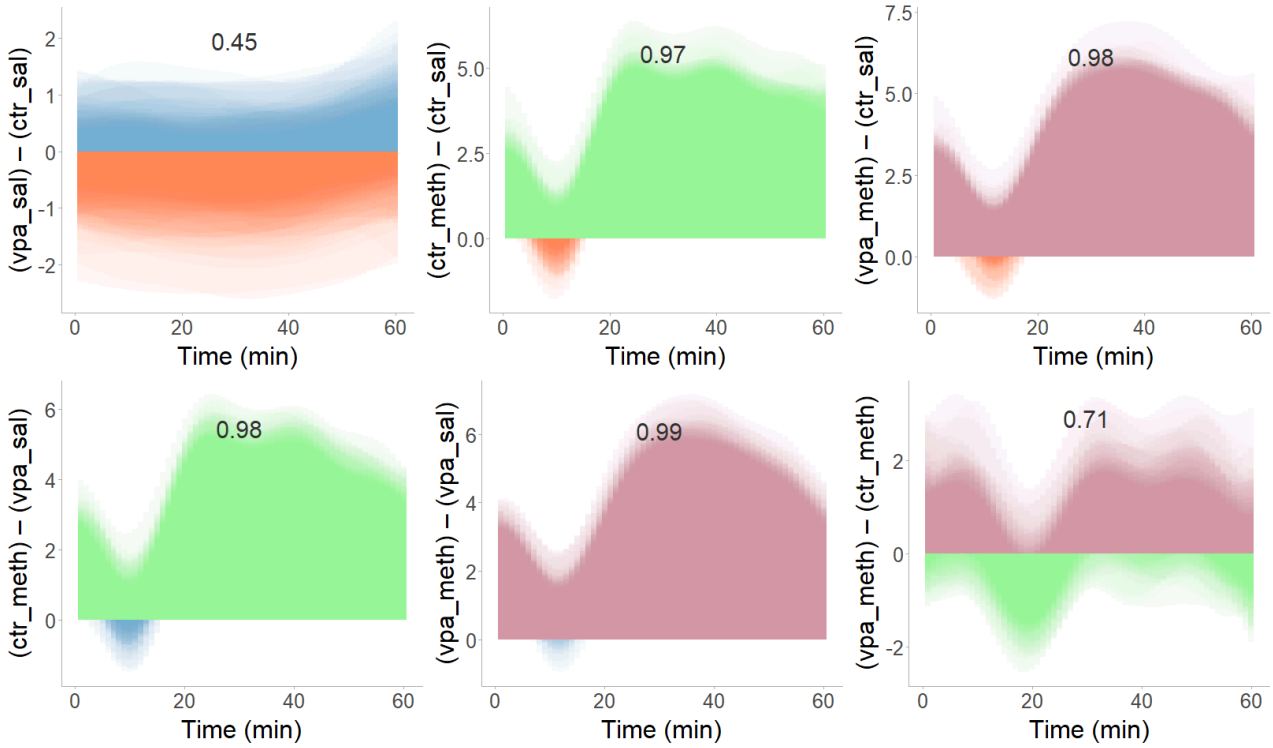

y ~ 1 + time * group + (1 | animal) + (1 | time) + (1 | litter) + Normal(0, sigma)

y ~ 1 + gp(time, by = group) + (1 | animal) + (1 | litter) + Normal(0, sigma)

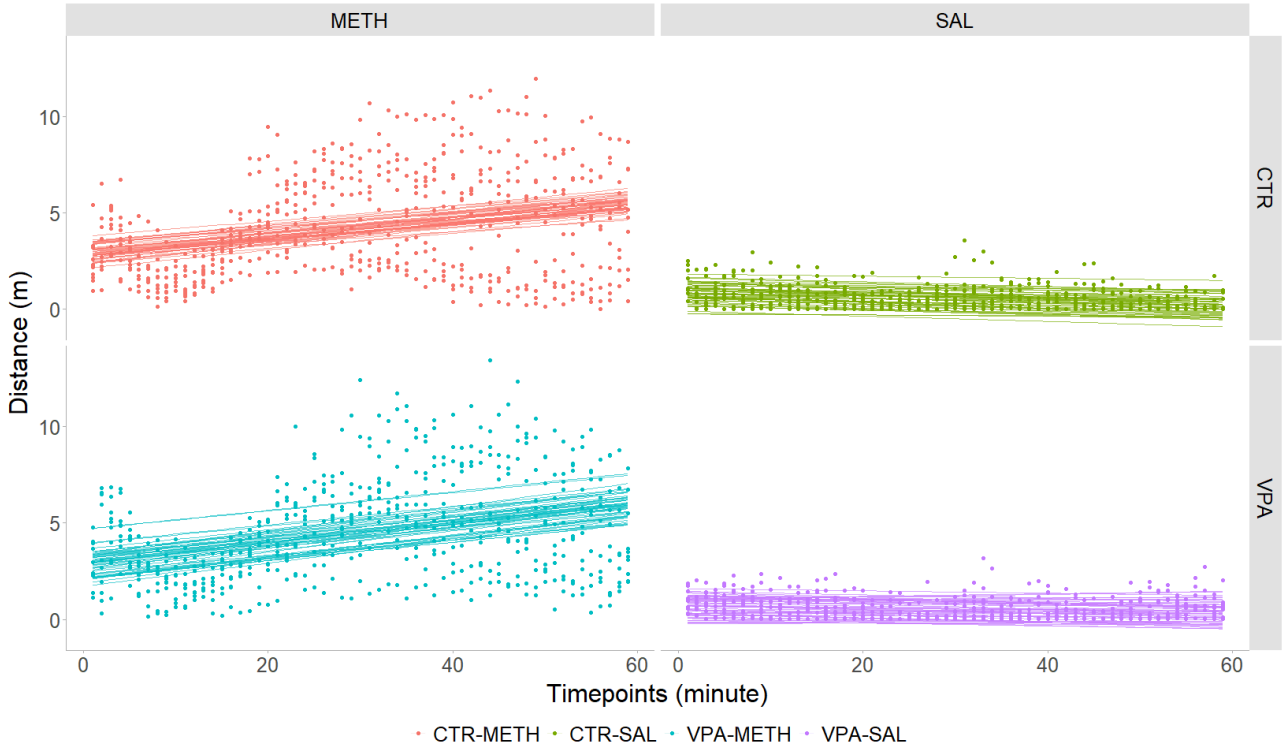

Contrasts

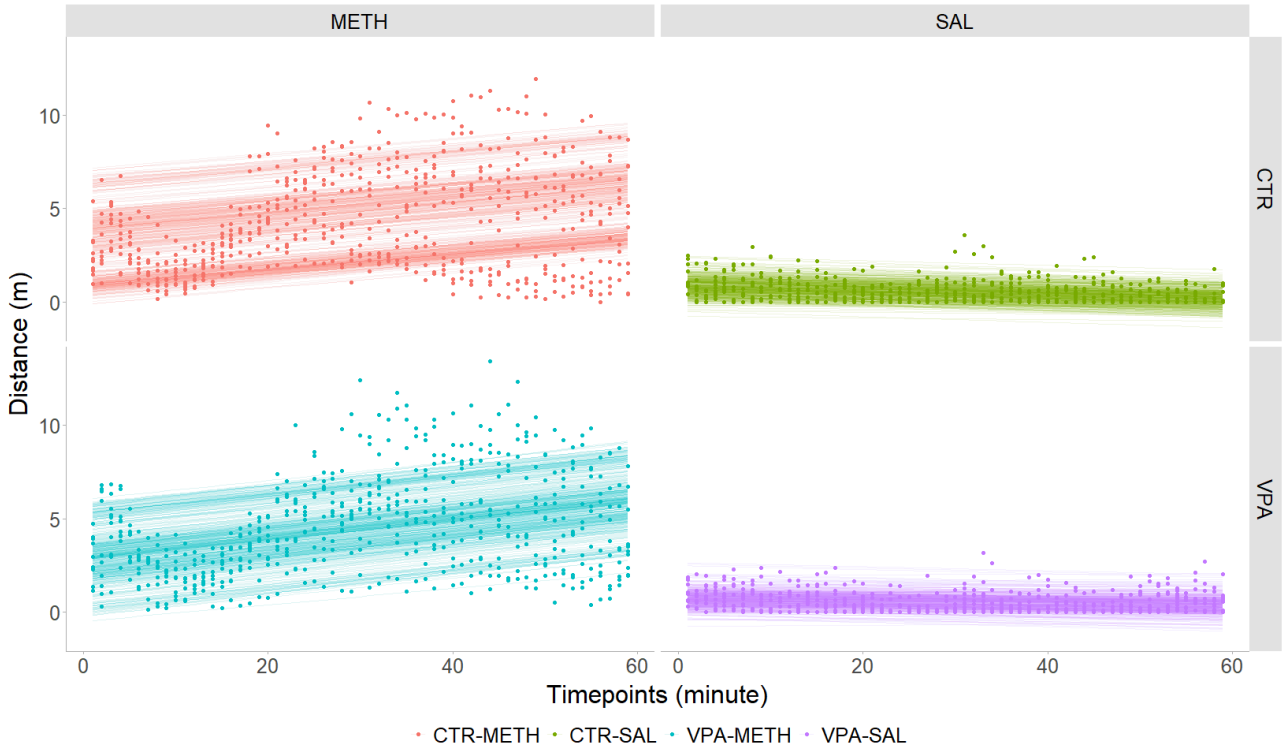

Different random effects contribution

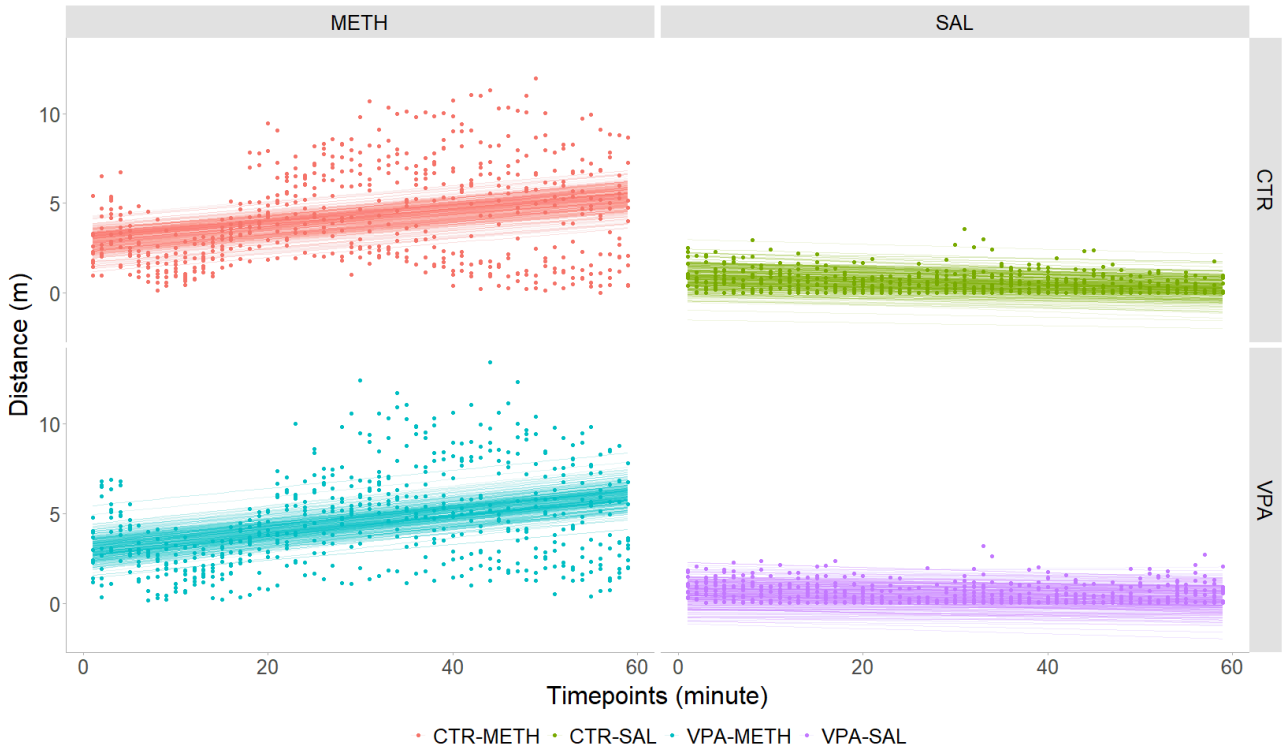

No random effects

Animal variability

Litter variability

Time-point variability
